Introduction

Konark Herbals & Healthcare Pvt Ltd (KHHC) is one among the prominent Indian manufacturers of Natural Products since more than 20 years.

KHHC offers wide categories of products, each with good depth. We manufacture Herbal Extracts (Dry, Soft, Liquid and Oil Soluble), Essential Oils, Fragrances and Cold Press Oils. We have two manufacturing facilities in Daman and one in Himachal Pradesh.

We have been proudly strengthening our Product Basket with Branded Products backed up with Clinical Trials. The Branded range offers unique benefits as compared to the generic products.

KHHC enjoys healthy Business relations across the globe in Pharmaceuticals, Nutraceuticals and Cosmeceuticals industries with offices set up in the USA, Spain, Australia & China.

Our Branded Range

offers **HIGHER ABILITY OF BIOAVAILABILITY**

CURCUABSORB®

Usual Hydrophobic Curcumin made More Hydrophilic

- ✓ Appreciably expands the scope of application into water based applications.
- ✓ Authenticated through pre-clinical trials.
- ✓ Made 40 times more soluble and 8 times higher Bioavailable compared to the conventional 95%.

CURCUCLEAR®

The Stainless Curcumin

- ✓ Stain and poor flowability are the major concerns in the manufacturing of Curcumin based products.
- ✓ Free flowing granular, 95% Pure & Stainless Curcuclear® improves production line cleaning efficiency by almost 95% by reducing post production utilization of water, labour and electricity.
- ✓ Ensures more eco - friendly and sustainable operations.

Our Branded Range

KONSENCE[®] AMLA

Super fruit with Super Absorption

- An extract from the versatile fruit, Amla, (*Emblica officinale*) rich in Vitamin C and Hydrolysable Tannoids (60% - 70%).
- Helps in Delaying Ageing Process, Improvement of Hair Health, Management of Cholesterol Levels, Aiding Digestive Process.

BERBABSORB[®]

- A novel upgraded product, made *via* matrix formation between a fat base and a vegetable protein.
- Offers improved bio-absorption, compared to conventional Berberine.
- Helps lower blood sugar levels and improves insulin sensitivity in people with type 2 diabetes.
- Does not increase the incidence of the adverse effects associated with diabetes.
- Efficacy being proven through a double-blind, active comparator-controlled clinical trial.
- Can be suitably incorporated into Tablets, Capsules, and Ready-To-Drink preparations (RTDs).

Clinical Trial Ongoing.
